

ABOUT INTERPAK

Interpak offers over sixty years of experience as an American-based custom packaging manufacturer with a global presence, state-of-the-art equipment, world class people, and a commitment to continuous improvement. We stand out from our competitors by increasing the efficiency and effectiveness of your packaging process by being **faster**, **finer**, and **flexible**. Allow us the opportunity to earn your trust while helping you increase your sales and profit.

FASTER

We have identified efficiencies which allow us to increase our speed of production, ensuring a 98% on-time delivery average with the fastest sample making project in the industry. As a result, you receive higher quality at a lower cost in a shorter time frame.

FINER

Packaging is your first chance to make a lasting impression. We know that the process requires far more than a one-size-fits-all approach; we promise to learn your brand, your clients, your budget, and your vision to make your custom package part of your brand story.

FLEXIBLE

Throughout the entirety of our partnership, our success is measured solely through your satisfaction. Just as we work to create a unique experience for your clients, we promise to do the same for ours. We offer a full concept-to-completion life cycle, as well as storage solutions and inventory analysis - acting as a core member of your team rather than an external vendor.
